18 December 1959

Dear Dick:

Contract No. BC-550 does not presently require written approval of the Contracting Officer prior to travel of personnel in connection with performance of work thereunder.

It is requested that authorization for all future travel which may be required be obtained from the Contracting Officer or in the case of Customer No. 2 from Sid. The exception is travel which may be utilized in commuting to the Edwards Air Force Base. The certificates of service should have included thereon the travel that was performed. Signature of the certificates by authorized personnel at the Test Site will constitute proper approval for travel.

Sincerely,

Dan
